

Denim fabric mill · weaving & dyeing in-house · Dongguan, Guangdong, China
Dongguan Future Textile Co., Ltd.

Thirty years in the denim trade, rooted in our own **weaving mill** and **slasher dye house**. High-end, small-batch custom development is our core work — including the difficult constructions and finishes most mills turn down. Stock qualities ship in 48 hours.

TWO PLANTS WE OWN

Weaving mill

Yarn in one end, denim off the other — no grey-cloth trading in between.

- Rapier looms up to 150 cm
- Shuttle looms, 82 cm selvedge
- Own warping & beaming line

Slasher dye house

Colour mixed and matched on site, never sent to a third party.

- Indigo rope & slasher dyeing
- Sulfur black, reactive colour
- Foam indigo: up to -90% water

Wash & finishing

Wash effects developed in-house against your master swatch.

- Enzyme, stone, bleach, snow
- Laser-ready, coated, crinkle
- Singed, sanforised, stenter-set

Denim

6–14 oz · 82 cm selvedge to 160 cm · 112–474 gsm across the range · indigo rope & slasher, sulfur black, low-water foam dyeing · raw, one-wash, enzyme, stone, bleach, whiskering

Range: 20+ denim qualities in the current line — selvedge, comfort stretch, slub, broken twill, jacquard, knit denim, coated and eco blends in TENCEL™, linen, hemp and recycled cotton. Fabric by the metre, 300 m minimum on custom colours.

BULK · BOOK AHEAD

Note on volume: large runs are quoted with a booked production slot — please confirm your slot before the season starts, so we can reserve capacity for you.

HOW WE START

01

Send us anything

A spec sheet, a swatch, or just a photo of what you want.

02

Develop & sample

Wash development and a PP sample before any bulk run.

03

Bulk & ship

In-line inspection, packing, shipping from our floor.
